

STUCK PIPE PREVENTION + FISHING OPERATIONS / VOLUMETRIC STRIPPING

What is this course about?

- The objective of this programme is to provide an understanding of how stuck pipe prevention can be managed in drilling operations.
- Participants will gain the necessary knowledge to implement preventive measures to avoid a stuck pipe situation and will also be able to supervise and plan correctly any stuck pipe incidents.

Who should attend?

- This course is designed for all personnel concerned and involved in drilling and workover operations.
- E.g.: Drilling engineers, well planners, drilling supervisors and other drilling crews.

Certification

- Successful completion of the course will result in a VELESTO-Drilling Academy certificate with 2 years validity.
