

VIRTUAL TRAINING

TECHNICAL COURSES

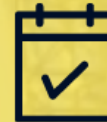

HIGH PRESSURE HIGH TEMPERATURE (HPHT)

WHAT IS THIS COURSE ABOUT?

- To provide participants with a comprehensive understanding of the well design and operational requirements for HPHT wells.
- The course explores the principles of HPHT well engineering, beginning with rig selection and progressing through well control and HPHT considerations.

WHO SHOULD ATTEND?

- For engineers involved directly or indirectly in the delivery of HPHT wells, such as office-based planning and operations well engineers and field-based operator/contractor supervisory staff.

24 - 25 Aug 2022
